

Greetings from the Moon River! We have an update for our members on current water levels and a few local events and initiatives.

Moon River Water Levels

Please be advised that water levels on the Moon are higher than seasonal after the melt of recent snowfall and heavy rain. The current water level of the River is estimated to be approximately 2 feet higher than normal summer levels. Please check and secure your docks and remove loose items around the shorelines.

We will continue to update you frequently if water levels continue to rise.

Fire & Ice Festival Bracebridge

The annual Fire and Ice Festival in Bracebridge is taking place on **January 27th and 28th.**

This is a great winter event for families and the local community. The "FIRE" features include performances by talented fire artists and a spectacular fireworks display. Warm up

around the many fire pits throughout the festival and enjoy a classic Muskoka treat, on a open fire. The "ICE" features includes interactive ice displays, ice sculpture carvings and ice skating.

For more information please see the [2023 Fire & Ice Schedule](#).

District of Muskoka Second Home Survey

The District of Muskoka is conducting a Second Home Survey. The purpose of this survey is to inform Muskoka District Council on how second home households are used, how they may be used in the future, individual needs and participation in the local economy.

Given the significance of the second home population and its contribution to Muskoka's culture, economy and social structure, the District of Muskoka periodically conducts this anonymous survey to capture important information about Secondary Home owners.

If interested, please see the link to the [District's Second Home Survey here!](#)

The Second Home Survey is available until February 27, 2023

That's all for now. See you on the Moon!

Sincerely,

Holly Thompson
MRPOA Communications Director
